

# Medicare Professional Fee Data

Online Medical Coding Software

## Medicare fee data tailored to your specific needs

Optum® Medicare Professional Fee Data files allow you to access Medicare fee schedules released by CMS and supplement that data with proprietary data add-ons.

### Valuable data that is difficult to collect and find

- Let Optum experts monitor the CMS website for you.
- Obtain locality- and contractor-specific prices without struggling.
- Items and services are listed in consistent data formats.
- Data is available via download from the Optum data vault.
- Access data updates throughout the year as they become available.

### Key features and benefits

These files allow you to develop a complete Medicare-based fee system for professional and ASC services. The data is single locality or all localities and can easily be imported for maximum convenience. Also request custom file layouts, calculations or Optum proprietary data enhancements not available elsewhere for fee schedule development and payment system maintenance. Our team works with you to ensure that the data meets your requirements.

## Medicare Professional Fee Data

Data sets	Price
Set 6 Medicare Psychologist and Clinical Social Worker Fees	\$99.95/Locality \$999.95/Entire U.S.A.
Set 7 Medicare HCPCS (DMEPOS) Fees	\$249.95/State \$1,999.95/Entire U.S.A.
Set 8 Medicare ASC Rates	\$299.95/State \$3,999.95/Entire U.S.A.
Set 10 ZIP Code to Medicare Locality Crosswalk	\$999.95 Entire U.S.A.
Set 11 National Medicare Physician Fee Schedule (MPFS)	\$349.95
Set 12 Medicare Anesthesia Relative Values and Conversion Factors	\$129.95
Set 13 Medicare Ambulance Fee File	\$249.95/Contractor \$1,999.95/Entire U.S.A.
Set 14 Medicare Place of Service Codes File	\$399.95
Set A Optum Proprietary Gap Values for RBRVS	\$1,549.95
Set B Anesthesia Base Units for Surgical CPT® Codes	\$499.95
Set C Medicare Single Drug Pricer Drug Pricing Files (Excel format)	\$500.00

**Your organization may receive a savings benefit when purchasing these files as a bundled package. Ask a sales representative for more information.**

**National Set:** \$15,000, multi-user pricing available.  
(Includes all file sets)

**Locality Specific Set:** \$1,500, multi-user pricing available.  
(Includes file sets: 2, 3, 4, 5, 6, 7, 8, 13)

### Set 1: National RBRVS Medicare Values

Relative values as published in the Medicare Physician Fee Schedule Database (MPFSDB).

Data elements include: CPT®/HCPCS code, modifier, code description, Medicare status code, work RVU, non-facility practice expense RVU, facility practice expense RVU, malpractice RVU, total non-facility RVU, total facility RVU, OPPS RVUs and global surgery periods. Includes a file containing Medicare's geographic practice cost indices (GPCIs) so you can calculate locality-specific relative values and fees.

**Price:** \$149.95

### Set 2: Locality-Specific RBRVS

Medicare relative values with geographic adjustments (GPCIs) applied. Choose one or more localities or data for the entire nation by locality.

Data elements include: CPT®/HCPCS code, modifier, code description, Medicare status code, GPCI adjusted work RVU, GPCI adjusted non-facility practice expense RVU, GPCI adjusted facility practice expense RVU, GPCI adjusted malpractice RVU, GPCI adjusted total non-facility RVU, GPCI adjusted total facility RVU and global surgery period.

**Price:** \$249.95/Locality \$3,499.95/Entire U.S.A.

or call **1-800-464-3649, option 1**, to speak with a representative.

CPT is a registered trademark of the American Medical Association.

### Set 3: Locality-Specific Medicare Physician Fee Schedules

Medicare fees are calculated using Medicare relative values, geographic adjustments (GPCIs) and the Medicare conversion factor. Choose one or more localities or data for the entire nation by locality. This data set gives you the actual Medicare fees by area and procedure for nonparticipating and participating providers. Data includes budget-neutrality and calculation flag adjustments when required by CMS.

Data elements include: CPT®/HCPCS code, modifier, code description, Medicare status code, non-facility par fee schedule amount, facility par fee schedule amount, non-facility non-par fee schedule amount, facility non-par fee schedule amount, OPPS amounts and global surgery periods.

**Price:** \$299.95/Locality \$3,999.95/Entire U.S.A.

### Set 4: Clinical Lab Fee Schedule

Values for the 2,400+ outpatient clinical laboratory services from the Medicare Clinical Lab Fee Schedule, by contractor. Choose one or more contractors or data for the entire nation by contractor and locality.

Data elements include: CPT®/HCPCS code, modifier, code description and the payment amount for the specified contractor and locality.

**Price:** \$249.95/Contractor \$1,999.95/Entire U.S.A.

### Set 5: Medicare Average Anesthesia Fees, by Locality

This benchmark of Medicare anesthesia reimbursement uses Medicare base units, Optum proprietary average billed times and the current Medicare conversion factor for the locality you select. This data set gives you a benchmark of what you can expect for anesthesia payments or reimbursement for Medicare anesthesia services.

We take the current average anesthesia time and anesthesia base unit and multiply by the locality-specific conversion factor to give you an estimate of anesthesia reimbursement. Choose one or more localities or data for the entire nation by locality.

Data elements include: CPT® code, code description, anesthesia base unit, average time units, conversion factor and average anesthesia fee.

**Price:** \$399.95/Locality \$2,499.95/Entire U.S.A.

[optumcoding.com/data](https://optumcoding.com/data)  
or call **1-800-464-3649**,  
**option 1**, to speak with a  
representative.

### **Set 6: Locality-Specific Medicare Clinical Psychologist and Clinical Social Worker Fee Schedule**

Medicare fees for non-physician behavioral health providers, by locality. This data is a subset of the Medicare Physician Fee Schedule. Fees are calculated using Medicare relative values, geographic adjustments (GPCIs) and the Medicare conversion factor.

Data elements include: CPT® code, Medicare status code, code description, psychologist par fee schedule amount, social worker par fee schedule amount, psychologist non-par fee schedule amount and social worker non-par fee schedule amount for facility and non-facility settings.

**Price:** \$99.95/Locality \$999.95/Entire U.S.A.

### **Set 7: Medicare HCPCS (DMEPOS) Fees**

Medicare fees for nearly 3,000 DME, orthotics, prosthetics, vision, parenteral/enteral nutrition and medical/surgical supplies. This data set provides you with all the fees for Medicare DMEPOS and PEN fee schedules by the specified state. Choose one or more states or data for the entire nation by state.

Data elements include: category, HCPCS code, HCPCS modifiers, code description, rural fee schedule amount, non-rural fee schedule amount, minimum fee schedule amount (floor), and maximum fee schedule amount (ceiling). Also includes separate ZIP Code file to identify rural areas.

**Price:** \$249.95/State \$1,999.95/Entire U.S.A.

### **Set 8: Medicare Ambulatory Surgery Center (ASC) Rates**

Calculated ASC fees for CBSAs within the specified state, using the criteria specified by CMS for ASC fee development. Choose one or more states or data for the entire nation by state.

Data elements include: CBSA, CPT® code, code description, payment indicator, base rate, payment rate and actual payment amount.

**Price:** \$299.95/State \$3,999.95/Entire U.S.A.

### **Set 10: ZIP Code to Medicare Contractor and Locality Crosswalk File**

Now you can map ZIP Codes to specific Medicare localities and contractors.

Data elements include: State, county, city, metropolitan statistical area (MSA) code, rural indicator, ZIP Code, Medicare contractor/locality, CBSA and CMS +4 ZIP Code indicator. Includes CMS +4 file for nine-digit ZIP Codes where required.

**Price:** \$999.95/Entire U.S.A.

[optumcoding.com/data](https://optumcoding.com/data)  
or call **1-800-464-3649**,  
**option 1**, to speak with a  
representative.

### **Set 11: National Physician Fee Schedule Relative Value File and Medicare Policy File**

This data set allows you to see all the data included in the Medicare Physician Fee Schedule Database. This file gives you the relative values and all of the Medicare payment indicators.

Data elements include: CPT® and HCPCS code, modifier, code description, Medicare status code, work RVU, practice expense RVU, malpractice RVU, total non-facility RVU, total facility RVU, OPPS RVUs, professional/technical component indicator, global surgery days, and all the other Medicare Physician Fee Schedule modifiers, indicators and calculation flags.

**Price:** \$349.95

### **Set 12: Medicare Anesthesia Relative Value Guide Units and Anesthesia Conversion Factors by Locality**

This data set gives you locality-adjusted conversion factors for all Medicare localities and the Medicare anesthesia base units, so you just have to enter the time to calculate the Medicare payment rate for anesthesia in your locality.

Data elements include: CPT® code, code description and anesthesia base units. You are also provided with a file of the Medicare locality-adjusted conversion factors for anesthesia.

**Price:** \$129.95

### **Set 13: Medicare Ambulance Fee File**

This data set provides all the elements from the Medicare ambulance fee schedule files to determine locality-specific urban and rural rates for ambulance.

Data elements include: HCPCS code, code description, conversion factor, relative value unit, GPCI, rural and urban base rates, and mileage amounts.

**Price:** \$249.95/Contractor \$1,999.95/Entire U.S.A.

### **Set 14: Medicare Place of Service (POS) Code File**

This data set provides the Medicare place of service (POS) codes for accurate POS reporting. Price includes a new file with any updates posted by CMS during the subscription term.

Data elements include: place of service code, place of service name, facility/non-facility designation, place of service description and notes from CMS applicable to the place of service.

**Price:** \$399.95

Learn more at [optumcoding.com/data](https://optumcoding.com/data) or call **1-800-464-3649, option 1**, to speak with a representative.

### **Set A: Optum Proprietary GAP RBRVS**

Optum provides you with RVUs for many HCPCS and CPT® codes currently not valued by CMS. This data set allows you to create a more complete fee schedule for your organization. These are the same “gap” relative values as found in Optum The Essential RBRVS.

Data elements include: HCPCS or CPT® code, modifier, Medicare status, code description, work RVU, practice expense RVUs, malpractice RVU, total RVUs and global surgery days.

**Price:** \$1,549.95

### **Set B: Anesthesia Base Units for Surgical CPT® Codes**

This file contains Medicare anesthesia base units for anesthesia codes and surgical CPT codes. Also includes selected medicine and radiology codes.

Data elements include: CPT® code, modifier, code description and Medicare anesthesia base units.

**Price:** \$499.95

### **Set C: Medicare Single Drug Pricer Drug Pricing Files**

These files contain the Medicare ASP drug pricing files tables as released by CMS.

Data elements include: CPT®/HCPCS code, code description, payment limits for Part B drugs. Also includes NOC file by NDC for drugs that do not currently have a CPT® or HCPCS code and the NDC crosswalks for ASP, OPPS and AWP. These files are delivered in the original Excel format from CMS.

**Price:** \$500.00

*Data sets are .txt files (except where noted), available to download from the web. All pricing is single-user only. Call for multi-user pricing. Custom formats require custom pricing.*
